New York Oct 11.—The warrant of the tax re- [illegible] the property of the Pacific Mail [illegible] Co., was placed yesterday in the hands [illegible] Hayes of the tax office. Marshal Hayes [illegible] should retain the warrant for service upon [illegible] of the Company's property he could [illegible] believed that it had nothing but the [illegible] upon which he could levy. No [illegible] has thus far been obtained and [illegible] none could be obtained to prevent the [illegible] of the steamer, the supreme court of the [illegible] alone having such authority.

New York, Oct. 12.—No effort has yet been made [illegible] Marshal Hayes, of the tax office to execute the [illegible] of the tax receiver against the property of [illegible] the Pacific Mail Steamship Company to recover [illegible] due the city in unpaid taxes. The steam- [illegible] City of Peking, expected to day, will probably be seized.

Gold and Silver Commission.

The members of the gold and silver commission [illegible] this afternoon. It was announced that Wm. S. [illegible] of Cincinnati, had arrived, and a mes- [illegible] was dispatched requesting his attendance [illegible] when the commission will set to work.

Dr. Taylor, of the Broadway Tabernacle. Talmage says he had frequently expressed his intention to leave the paper, but the trustees were unwilling to part with him, and he was compelled to take the matter in his own hands. He becomes the editor of the Advance, a journal published in this city and Chicago, and with him are associated the Rev. Dr. Storrs of Brooklyn, and the Rev Charles H Spurgeon, of London.

The Faithful Come to Terms.

New York, Oct 12.—The Tammany, and anti Tammany conference committees this afternoon agreed on a basis of reunion.

Notable Wedding.

New Haven, Oct 12.—Hubert H. Bancroft, of San Francisco, author of "The Native Races of the Pacific States of North America," was married in this city this afternoon to Miss Matilda C. Griffin.

They Tell Him of it and He Responds.

New York, Oct 12.—The committee, appointed at Cooper Institute on Saturday last to tender Comptroller Green the nomination for mayor waited upon him this afternoon and fulfilled their mission. Mr Green made a lengthy address, devoted to improvements and growth of the city and wound up by accepting the nomination tendered him.

Uneasiness in New York.

New York, Oct. 12.—Some uneasiness was felt in the Produce Exchange to day among the trade regarding the reported rumors of the Russian government laying an embargo on the sailing of vessels of the Russian Steam Navigation Company loaded with wheat from Odessa to London. Holders of lines of wheat are said to have withdrawn their samples in expectation of a rise of price. The rumor lacks confirmation. Later in the day it was not generally credited.

American Mining Board.

New York, Oct. 12.—Sales at mining board 190 B & B 1,000 Con Imperial, 600 Point, 300 Exchequer, 1 500 Grant, 600 Indian Queen, 400 Julia Con, 400 Santiago, 400 S Hill 400 Union Con 50 Jacket. Gold and Stocks.

New York, Oct. 12.—Gold 109¾, money closed at 2@2½; governments dull strong, stocks dull, lower, Western Union 71¼, Quicksilver 11½, Pacific Mail 23½; Mariposa 4½, W F 85; N Y Central 102⅛, Erie 10, Panama 125, U. P. 63½, bonds, 106⅛, C. P. bonds, 109¼.

Philadelphia Salubrious.

Philadelphia, Oct 12.—Statistics prove there is no reasonable ground for the stories that Philadelphia is suffering from unusual prevalence of typhoid fever and bowel disorders. The death rate from these causes since the Exhibition opened has been three fourths of that in Chicago, five eighths of Brooklyn and four sevenths of New York.

THE EASTERN ELECTIONS.

Ohio.

Columbus, Oct 11.—At midnight Reps claim and Dems admit election of Barnes by 6,500, Boyton by about 8,500.

Chicago, Oct 11.—The situation to night is decidedly more favorable to Reps than last night, Ohio is conceded on all hands to have gone Rep. by an increased majority and to have gained four or perhaps more Congressmen.

Cincinnati, Oct. 12—10:45 A. M.—Barnes majority will reach from 4,000 to 5,000. The Congressional delegation will stand eight Democrats and twelve Republicans with possible contests in the second district, and Stanley's, Matthews' and the fourth, McMahon's district.

Revised returns from this county give Bell a majority of 851. Boynton's majority 115. Sayler, Democrat, for Congress, 95. The Republicans elect one judge, recorder, and commissioner.

Indiana.

Indianapolis, Oct 12.—Official and semi official returns from 28 Democratic and 27 Republican counties give Harrison for Governor 5 002 majority. In the remaining 23 counties in 1872 Hendricks received 5,971 majority. Gen Harrison's gain in the counties heard from over the vote of 1872, is 512.

Indiana, though still in doubt, seems to be Democratic, and private as well as public dispatches indicate that Republicans are losing faith in Harrison's election, as several Democratic strongholds are not yet heard from. Every county shows a decided vote for Republicans. The most enthusiastic believer in the Republicanism of that State but do not give any fixed majority. By far the greatest part of the politicians here have conceded it though by a bare majority, to them. It seems to be understood, however, among Republicans that a Democratic victory in Indiana now unless overwhelming means a victory for Hayes in November. There is a cheerful feeling at head quarters of Republicans, and it is reported that even though Indiana should give two or three thousand majority this will be considered substantially a Republican victory, especially as Republicans gain several representatives. Democratic headquarters present a lively and excited appearance to night, and as favorable returns are received from neighboring State, applause and other manifestations of delight are indulged in.

In Indianapolis the Republicans concede the election of Williams Democrat, for governor by from 3 000 to 5,000 majority. The Republicans gain four Congressmen including the defeat of Holman.

From the most reliable returns received the Legislature will stand: Senate—Democrats, 23, Independents 1, Republicans 25, doubtful 1. House—Democrats 43, Independents, 1, Republicans, 52, doubtful, 1.

The very Latest from Ohio and Indiana.

Columbus, Oct 12.—The Republican State Central Committee to-night revised their returns and now estimate Barnes' majority at 6,707. The fifty two counties reported on Boynton, Supreme Judge indicate that the majority on the State ticket will reach 9,000. The Republicans gain five Congressmen.

Indianapolis, Oct. 12.—Returns from 896 townships and wards in 85 counties give a net Democratic majority of 1,841. The same places in 1872 gave a net Democratic majority of [illegible]. The counties from which nothing has been heard gave Hendricks a majority of 3 131.

Complete returns from 81 counties, nearly all of which are official, give a net Democratic majority of 1 621. the remaining counties gave a Democratic majority in 1872 of 1,857. The counties to hear from are Benton, Clay, Crawford, Harrison, Perry, Pike, Spencer, Sullivan and Switzerland. Complete official returns may swell the majority to 4 000.

West Virginia.

Wheeling, W. Va., Oct 11.—But very few returns have been received from the State as yet. Those received, however show in a few cases gains for Goff Republican but they are offset by heavier gains for Matthews, Democrat. Matthews' majority will reach 10,000. The legislature will be about two-thirds Democratic, thus securing for them two senators. The vote of this city and county is not yet reported in full. Enough is known, however, to insure the election of the entire Democratic county ticket.

West Virginia returns are meagre but indicate a Democratic majority of 5,000 to 10,000.

The Inter-Ocean on the Situation.

Chicago, Oct 11.—The *Inter-Ocean* in giving the majorities in the Ohio elections of the last few years, says there is no consolation for the Tilden Democrats in these figures, as they leave nothing to be hoped for in that State by the Democratic party in November.

The news from Indiana is very meagre but more encouraging even than last night. The column of Republican gains increases as the returns come in, and if in the State the increase of the Republican vote as far as returned is maintained victory is assured. The gain in Congressmen is very gratifying. The present Congressional delegation consists of eight Democrats and five Republicans; the delegation elect stands nine Republicans to four Democrats. According to this view the next National House of Representatives, if we are to judge by Ohio and Indiana will be nearer one third than two thirds Democratic and rebel soldiers will not be as plenty as blackberries about the halls of Congress. The country is to be congratulated upon the assured result in Ohio and upon the strong prospects of victory in Indiana.

WASHINGTON CITY.

Value of Silver.

Washington, Oct 12.—The director of the mint has fixed the purchasing rate of silver at the mints and assay offices at 115 cents per ounce. This rate will be continued until further notice.

CANADA.

Prisoner Escaped.

St. Hyacinthe, Oct Oct 12.—Blanchette, accused of causing the great fire here, escaped from jail last night.

OREGON.

Wheat is worth 78 cents at the mills in Oregon City.

The flouring mill at Pendleton is now running day and night, turning out 80 barrels of flour per day.

It is reported from presumably well informed quarters, that Chinese operators are buying largely of choice grades of wheat in Eastern Oregon and storing it for sale at advanced prices.

The Pendleton paper learns that Mr Bradburn is buying beef cattle for parties on the Lower Columbia who intend trying the experiment of canning beef for shipment to foreign markets.

The *East Oregonian* puts this query: "What is it that, with the assistance of a small sapling, was captured in the mountains years ago, has the semblance of humanity and now talks almost as plain as the parrot?" We give it up.

OREGON LEGISLATURE.

NINTH BIENNIAL SESSION.

Senate.

Salem, Oct 12 1876.

Senate met at 10 A. M. and was called to order by the President.

Roll called and quorum found present.

Journal of yesterday read and approved.

Watt moved that the Senate resolve itself into a committee of the whole for the purpose of considering S B 31—for an act to provide for the care and keeping of the insane and idiotic—which motion prevailed, and Senator Haley was called to the chair.

The committee arose and reported back the bill with the recommendation that it do pass, which report was, on motion adopted and the bill ordered engrossed for third reading to-morrow at 10 A. M.

Colvig introduced S. B. 114—to provide for the sale of State lands and discontinue the office of State land register of the LaGrande district—which was read first and second time and referred to special committee, consisting of Jewell, Colvig and Munkers.

VanCleave introduced S. B. 115, for the relief of W. S. Ham, read first and second time and referred to the committee on claims.

Myers introduced S. B. 116, to amend secs 9 and 10, title 2, chap. 29, miscellaneous laws, read first and second time and referred to the committee on public lands.

Palmer introduced S. B. 117, to grant further aid in the construction of the Willamette Valley and Coast Railroad read first and second time and referred to committee on railroads.

Richardson introduced S. B. 118, to provide for the purchase of 100 Lerninger shackles, read first and second time and referred to committee on ways and means.

Cochran introduced S B 119, to reapportion the various representative districts of the State; read first and second time and referred to committee on elections.

VanCleave introduced S. B. 120, for the relief of Thomas Huntington, read first and second times and referred to the committee on claims.

Green introduced S B 121, to appropriate $2,500 to aid the county commissioners of Josephine county in the construction of a wagon road down the Rogue river, read first and second times and referred to committee on roads and highways.

THIRD READING OF BILLS.

S. B. 47—To create the office of State land register at Linkville, and provide for the sale of State lands therein, lost.

S. B. 113—To enable the voters of Curry county to vote on the permanent location of county seat, passed.

S. B. 22—To create the sixth judicial district and increase the number of Supreme Court Judges, lost.

S. B. 57—To provide for the registration of all citizens of this State and prevent fraud in elections.

On motion of Palmer the further consideration of the bill was indefinitely postponed.

The joint committee appointed to visit the State Agricultural College at Corvallis, submitted the following report which, on motion was adopted, and 300 copies ordered printed.

Mr President: Your joint committee appointed to visit and examine the State Agricultural College at Corvallis, have discharged that duty and would respectfully report that the Agricultural College is a good, substantial and commodious frame building, particularly described as follows. What is known as the old building is 30x48 feet, two stories in height, and has been refitted and refurnished throughout. The lower story is divided into two rooms. The first is occupied by the Preparatory Department and is 35x50 feet. The second room, 18x35, is designed for a laboratory. The upper story of said building consists of three rooms—the first and principal room 35x40, is the President's lecture room. The second room is 18x35 feet and is used for analytical purposes. The third room, 10x20 feet is at present used as a laboratory. A north wing has just been completed to the old building 30x70 feet two stories high. The first room on the lower story is 30x60 feet and is used as a chapel for literary exercises and for other purposes in which the whole school may be engaged. The upper story is divided into two rooms 30x30 feet, which are used for class purposes and are presided over by the professors of mathematics and languages. There are two private rooms for the use of teacher and a music room. There are two halls ten feet wide, each with a stairway leading from the lower hall to the upper. The rooms are furnished with desks, blackboards, charts, maps and other appliances for illustrating the various branches taught in the school. The college is also supplied with a first rate apparatus and with chemicals designed for the illustration of chemical and scientific subjects, valued at $2,500. The rooms in the college building are capable of accommodating three hundred students. The college building is surmounted by a tower or dome 16 feet square and 60 feet high. The college is located on a fine plat of ground composed of twelve lots situated in the center of the city. The grounds are ornamented with shade trees, and afford ample room and every facility for healthful out door exercises for the students. The value of the building and grounds is not less than $20 000. The college farm consists of 35 acres adjoining the city on the west, all in cultivation. There is an orchard on the farm with two hundred and fifty fruit trees of good varieties. There is also a barn and good dwelling house. The whole is surrounded with a good solid fence. The land is elevated and rolling and is well suited to practical farming. The farms and improvements are worth $6,000. The agricultural college is presided over by the President, B. L. Arnold assisted by a full corps of efficient teachers. As the charge has been made that the agricultural college is a sectarian institution your committee would report that there is no foundation for the charge, in matter of fact, that the faculty of the college and also the board of regents are composed of men of different religious and political views, yet they all work together for the best interest of the school, and the only desire of both teachers and regents is to make the agricultural college a first class institution in every respect. The course of study established by law is taught thoroughly and complete agriculture, both theoretical and practical, being made a specialty. During the last two years the quota of agricultural students has not been full, the average being 47, whereas the State is entitled to sixty students to be educated free of charge. In this connection your committee by request of the faculty would call the attention of honorable Senators to this fact and urge upon them the importance of selecting the number of students from their respective counties to which they are entitled by law. The college is in great need of a teacher to take charge of the agricultural department whose duty it shall be to teach analytical chemistry, botany, fruit culture, stock breeding, practical agriculture and kindred subjects. In conclusion your committee would recommend that the usual appropriation of five thousand dollars be made for the support of the institution and also a special appropriation of one thousand dollars to be expended under the direction of President B. L. Arnold, for the purchase of a library for the college. Your committee would further report that the faculty and Board of Regents of the Agricultural College court investigation at all times and especially ask that a committee be appointed to visit the institution at the commencement exercises of the college and decide for themselves as to the thoroughness of the students and the efficiency with which the teachers perform their duty in carrying out the letter, spirit and intent of the law organizing and establishing the State Agricultural College.

Respectfully submitted,
J. S. PALMER,
Chairman of Senate Committee.

STATE FAIR.

SIXTEENTH ANNUAL FAIR OF THE OREGON STATE AGRICULTURAL SOCIETY.

Fourth Day.

Salem October 13.

Still they come, is the cry, and from indications they will continue to arrive until the last of the week; and if it had not been for the rain that fell along the border of the upper end of the valley, there would have been an immense crowd attended this week. The trains from Portland and Albany were crowded, so much so that there certainly could not have been many left at the latter place at least. The

SHOWS AND BOOTHS

Are now reaping a full harvest, as people will spend money, and those institutions are very willing to receive all that they can get. Montgomery Queen's circus, Mammoth bone tent, and the Yellowstone River Panorama, are doing a good business, and there were at least four thousand people in the circus tent last night, and still the crowd is not satisfied.

The various committees are busy at work, and the following I copy for the interest of your readers:

RUNNING—PURSE $500.

Single dash, free for all 2 year olds. Winooski, A. Westfall, 3 years old, Eliza Jane, J. J. Cozart; Olo, F. B. Homer, Brick Pomeroy, W. S. Wilcox, Dasher, W. G. Scoggins, Hardbargain, J. F. Bybee, Zeller, R. E. Bybee, A. A. Straw, Wm. Bigham, Emma Thayer, Sank Owens, Fanny Stott, Geo Scoggins, Mattie Glyde, G. J. Basket. Time, 1.53¼. Hardbargain, 1, Olo, 2, Winooski, 3.

This race was soon over and did not prove of much interest, but some of them showed that they had the speed.

RUNNING.

Private race, single dash, half mile, purse $10, purse and sweepstakes. Ben, named by Wm. Tennant, Bill Gird, Wm Gird, Joe Nixon, Joe Crabb. The horses got off in fine style and the race was over in a short time and resulted as follows: Bill Gird, 1, Joe Nixon, 2, Ben, 3, time 0.51.

2d. There was some danger that winter would set in before the horses could be got to the post and started but finally they were sent off, Bill Gird winning in 0.51½.

FIREMEN'S CONTEST.

The different hand fire engine companies had their contest as per programme, and the following companies entered for the premiums: Crescent, No 1, of Albany, Tiger, No. 2 of Salem, and Tiger, No. 5, of Portland. Promptly at 10 A. M. the engines were called, and the crowd began to gather, evincing considerable interest, especially in their own local company. The marshals and City Rifles, of Portland, were kept pretty busy in restraining the crowd, but acquitted themselves with credit. The rule was that each company should muster 45 men and have three trials each, and use 150 feet of hose. The Albany company was called first and went to work with great energy and succeeding in throwing 190 feet three inches, withdrew.

Tiger, No 2 of Salem, assumed their place and soon reached 184 feet when their hose bursted, and they were compelled to withdraw without being satisfied with their effort, as they claimed they should be allowed to replace their bursted hose.

Tiger No 5 of Portland, came to the front and succeeded in sending water 168 feet 11 inches, and the Albany company was declared the victors, which ended the contest. After the conclusion of the contest, the Salem company attempted to cross the crosswalk between the pavilion and the new building, when the linchpin came out and caused the tongue of the engine to strike Mr. R. H. Price in the side, knocking him senseless, and seriously injuring him. The tongue was broken.

EQUESTRIANSHIP.

Wilda Greenwood, Howell Prairie, Josephine Smith, Heppner, Umatilla county, and Mrs Mary Nixon, Albany, were the contestants for the prize. The riding was performed on the track in front of the judges' stand on the first and last quarter stretches. The ladies changed horses twice, and seemed perfectly at home. After the awarding of the premium, Mrs Nixon gave a voluntary specimen of her riding which somewhat astonished the audience, such as riding at full speed, stopping suddenly, turning the horse in short circles, etc, and scattering the crowd promiscuously. The crowd cheered, and one enthusiastic gentleman passed around the hat and collected considerable money amid the uproar and excitement.

The Pavilion.

Beginning at the middle door of the pavilion (on the side opposite the monkey), we have a very fine article of mohair, both gray and black, manufactured in the United States from the fleece of the Angora goat. Some nice driving gloves of different styles, and several carriage robes with the fleece on, are specimens of what can be done with goat's skin. Next comes the display of work done by the young folks. Miss Hattie Goudy has a card of crochet containing 40 varieties of edging and inserting. A beautiful crochet tidy by the same miss wears the blue. Miss Marie Savage has the blue ribbon for a pretty book mark. Miss Addie Cann has the first premium on a worsted tidy and toilet cushion. Miss Belle Smith has the first premium on patchwork quilt, and Eva Waite the second. The exhibition of misses' work is very small. A quilt by a girl of ten, Mary A. Dimick, has a first premium; the second was won by a girl of eight years, Ida Emerson. Next in order comes some home made blankets made by Mrs. M. A. Dimick and Mrs J. M. Kinney. The latter lady has a very fine one of all wool. The handsomest rag carpet has not the name of the maker on the card; the entry is No. 10. The carpet is made partly of yarn, and is beautifully striped. Some very good home-made yarn has not yet been passed on. The Centennial relics are quite interesting, what there are of them. A Bunker Hill sword, found on the battle ground in 1775; a pair of iron steelyards, and some spoon moulds brought from England in 1765; a home-made towel, bearing date 1774; a sampler, with the date worked in 1769 over the name of Elizabeth Peiske, comprise the list so far as we could see.

In the corner on this side a very elaborate toilet set covers a large space and deserves the blue ribbon which it wears. A delicate tatting toilet set has the red ribbon. A beautiful log cabin quilt wearing the blue was hung so high that we could not see the name on it. Two nice suits for boys, machine and hand made, by Mrs. J. V. Taylor, Salem, have first premiums. Gents' suits, by the same person, have the first premium, and are, we think, without competition. A pair of knit window curtains, by Mrs. Mitchel, have a large amount of work in them. A white bed quilt, by Mrs. Chichester, is handsome. Across to the other side the hall we have the miscellaneous department of ladies' work. The work of the reporter, here, seems bewildering. We can only notice that which strikes us as being especially fine. A wall pocket or paper case has an exquisite bouquet of delicate flowers in velvet applique and beads. A handsome lamp-mat, imitation moss, by Miss Nellie Meacham, has a first premium. Miss M. B. McMurray has a beautiful handkerchief trimmed with lace crochet, and transferred work, first premium. Two handsome home made balmorals, the one woven and the other crocheted, each have first premium—the one in crochet is very rich in color and shading. It was made by Mrs. Mulhaupt. A lovely card basket of shell work and lined with white, displayed fine taste. A handsome dressing-gown by Mrs. I. M. Adair, wears the blue ribbon. Mrs. Chichester takes the first premium for bead watch pocket, and deserves it, as it is a very beautiful piece of work. Out of a large lot of babies' bibs, we could hardly choose, though one by Mrs. F. M. Sower is very neat. A beautiful knitted tidy has no name on it. A handsome bible cushion, by Miss Mary Gilbert, painted with water color on silk, is very pretty. An album of sea mosses, by Miss Nellie Meacham, is very tastefully arranged. Mrs. T. W. Shelton, has a Centennial tidy with a spread eagle, etc., nicely worked. There are many toilet sets ingenious and tasteful. Mrs. J. Condit has a handsome transferred collar. Miss Maria D'Arcy a most beautiful specimen of tatting, Mrs. Chichester a baby's crib quilt, all of which wear the blue. Mrs N. C. Dozier has several pieces of fine embroidery in cotton and linen. Mrs. C. N. Potter infant's dress in silk embroidery. Mrs. J. Condit has a premium on shirts, machine work. Mrs Amanda Wright has several first premiums on her unapproachable hand work. Mrs. I. M. Adair has first premium on cotton shirt hand work. A beautiful white dress for a miss in hand work, by Mrs. J. Condit, deserves the blue ribbon which it has worn. Mrs. E. Y. Chase is the champion button-hole maker of the State and has won the premium three or four years. Miss Lena Williams has a very handsome set of underclothes, showing an attainment quite rare for a young lady of the present day. A boy's suit by Mrs. J. Condit, hand made, has the second premium. Beginning at the center on the right hand, the display of

CROCHET

Comprises some delicate specimens. Mrs. Mulhampt has the first premium on an elegant collar, baby sack and bed-spread, Miss Fannie Sewall has second premium on baby's sack and, we think, deserves the first. Mrs. P. Bowers has first and second premiums for crochet pillow-slips, out of at least a dozen applicants for the honor. Miss Alice White has first premium for gents' scarf. Mrs A. M. Brayton has second premium for collar. The amount of thread put into crochet is simply astonishing. Tatting is well represented. An elegant handkerchief and collar and toilet cushion cover and a card of lace specimens by Mrs W. J. Humphrey cannot be excelled in this line, and all wear the blue.

BRAIDING.

Mrs Eliza Clayton has first premium on pillow shams, Mrs. J. Holman, second. Mrs N. L. Cook has first premium on baby's sack and lady's shawl. Mrs F. P. Fower has first premium on boy's suit braided, Mrs. N. L. Cook for lady's braided dress. A handsome opera cloak has no name on it. Mrs E. A. Colbert has first and second premiums on knit pillowslips. Mrs S. Huggins has the best wool socks, Mrs S. A. Condit second. Mrs. E. Trulling, the best wool stockings, Mrs S. A. Condit second. Mrs N. L. Cook, second premium on cotton stockings, and should have had the first. Mrs. Mitchell has a first premium on a handsome knit spread, Mrs P. Greger has the second. These are a world of work to make, we should think.

EMBROIDERY.

Mrs. T. H. Cann has the first and second premiums on the smoothest and handsomest worsted embroidered chairs. Mrs A. N. Gilbert has a first premium on a sofa cushion. Mrs. J. D. Lee has a fine table cover. Mrs Susan Huggins has the best raised embroidery. Mrs Eliza Payton has a lovely toilet cushion. Miss Annie Durbin has second premium on sofa cushion; Miss Nettie Starkey, on child's embroidered dress. Lena Williams has most deservedly the first premium on infant's sack and infant's skirt, misses' skirt and sweepstakes for silk embroidery. Mrs. T. Abrams has second premium on infant's blanket and sack. Mrs J. Holman has a pair of embroidered pillow shams in cotton, that for want of a better adjective, we write magnificent. Time fails us to finish out the rest of the work, as the judges are not yet through, and we can't come in there. The show of fancy work and worsted embroidery has never been so fine in any previous year, and we see signs of improvement in these branches of ladies' work.

FRIDAY MORNING OCT 13 1876

PREPARATION FOR RESUMPTION.

The opposition make a point in the discussion of the currency question, that notwithstanding the Republicans have passed an act for the resumption of specie at a stated time they have made no preparation for actual resumption. This is the excuse offered by those Democrats who like Mr Lane, of Oregon, in the face of professions of desire for resumption voted to repeal the resumption act. It would seem the most natural thing for them to have done, if they were sincere in their professions would be, not to have voted for the repeal of the act, but to have brought forward some measure to prepare for resumption.

But is it true that nothing has been done toward resumption? The first and best step in preparing to resume is to build up and establish the credit of the nation, so that it will be possible to obtain money on easy terms to meet any demand that may be made on the treasury. If the financial policy of the Government, under the Republican administration, has been such as to have this effect, then something has been done—much has been done—toward resuming. Look at the facts and say whether something has not been done in that direction. About the time of the close of the war the Government borrowed money at six per cent. The bonds were at par in currency, but currency was worth only about 40 cents on the dollar. In that way, the Government paid about 15 per cent on the money actually obtained. After three years the bonds then issued were exchanged for six per cent. five-twenties, bearing interest in coin. By 1873 we could borrow at five per cent. to a limited amount. As time went on the credit of the nation continued to improve, and the five per cent. loan went off more readily. The funding into five per cents was completed in 1875.

During the past summer bonds at 4½ per cent. have been placed without difficulty at a premium of almost one per cent. The success of this loan demonstrates that the credit of our government is equal to that of the leading nations of the old world. "American 5 per cents are higher in London than French fives." Before another year has passed our government will be refunding its debt at 4 per cent and its bonds will be sought after. Thus the annual interest account of the government is decreasing every year, and the facility of getting money to meet any emergency, without the payment of ruinous rates of interest, is already practically unlimited. That is exactly the preparation necessary for resumption of specie. Whenever the government can count with certainty upon a supply of coin sufficient to meet its obligations as they are presented, which does not mean enough to redeem all or any very large percentage of its notes at once—all the preparation will have been made that is needed. Greeley's way of putting it—"The way to resume is to resume,"—will then be correct. And the time is surely approaching when this will be the case. The gold quotations show a constant decline in the value of specie, which is but another way of saying greenbacks are gradually approaching an actual value equal to their normal value. The nearer they approach gold, the less difficult will be the process of resumption. The Republicans have, then, done much in the way of preparing to resume, and that which they have done is just what the Democrats could never do, if they were in power, namely, the inspiring of confidence abroad in the steadiness and stability of our financial system.

HOW WILL NEW YORK GO?

The Democracy count with great certainty upon carrying New York in the Presidential election. Should they do so, it is estimated, and, we take it, not unreasonably, that the Republicans must carry both Ohio and Indiana, in order to elect Hayes. Taking the results of last Tuesday as a criterion, and remembering that the Republicans hitherto have been much stronger, relatively, in that State in Presidential than in State elections, there is no reason for Republicans to feel discouraged about Indiana. The probabilities are that the Electoral vote of Indiana will be cast for Hayes, thus making his election secure even without New York.

But can the Democrats carry New York? Are they not counting entirely without their host, when they assume that because they carried the State by a large majority at the last gubernatorial election they will do the same thing at this time? True Tilden beat Governor Dix 50,317 votes. That is a formidable showing, till it comes to be analyzed, but upon critical examination it ceases to be so very frightful. In 1872 Dix beat Kernan, the Democratic candidate, 53,451. So there was an apparent Democratic gain in 1874, of 10[illegible] but this was only apparent, not [illegible] Kernan's total vote in 1872 was 392,35[illegible] Tilden's in 1874 was 416,391, only 24,041 more than Kernan's. Dix's vote in 1872 was 445,801, and in 1874 it was 366,074, a falling off of 79,727. What became of all these Republican votes? They did not go to Tilden, for he received less than 25,000 increase on Kernan's vote. They *staid at home on election day*. Tilden got all the Democratic vote and a good many Liberals who will vote for Hayes this fall. But let it be admitted that Tilden will get as large a vote as he received in 1874. It may also be safely assumed that the entire Republican vote will be polled. It came out in 1872, because there was a Presidential election and it will come out now for the same reason. In order that calculation may proceed on the safest possible basis, so far as the Republicans are concerned, let it be conceded that the 24,041 votes which Tilden received in excess of Kernan's vote had gone over from the Republican party, not to return and that therefore Tilden may be expected to get this fall the full vote he received in 1874, and that Hayes will lose the 24,041. After all these concessions in favor of the Democracy, the vote this fall would be 4[illegible] for Tilden and 421,700 for Hayes giving the State to the latter by 5,300—not a very large majority, but enough. This computation allows the Democrats every advantage they can claim by any possible interpretation of the past elections. But if we assumed the much more probable basis, and estimate that Tilden will receive about the same vote as before—the highest Democratic vote of the past elections and the vote that elected him by over 50,000 majority, and that Hayes will receive the full Republican vote thrown in 1872, *Hayes' majority in New York will be 29,410*.

The very latest dispatches from Ohio and Indiana—telegraphed at half past 1 o'clock this morning—show the Republicans have carried the former State by 6,700 for Barnes and 9,000 on the rest of the State ticket and gained five Congressmen. Indiana goes Democratic by from 3,000 to 4,000.

WASHINGTON TERRITORY POLITICS.

Ilwaco, Pacific Co., W. T.,
October 8th, 1876.

TO THE EDITOR OF THE OREGONIAN:

In your issue of the 7th inst. I notice the publication of a communication signed M. S. Griswold, and addressed to the independent voters of Cowlitz and Wahkiakum counties, W. T., and dated at Kalama, Oct. 4th, 1876. This communication is intended to mislead the voters of the two counties above named by charging that the avowed object of C. A. Reed is local legislation. In justice to myself and to all the voters within the Council District for which I am nominated for the office of Joint Councilman, you will confer a favor by publishing the following in your next issue of the WEEKLY OREGONIAN.

TO THE VOTERS OF COWLITZ AND WAHKIAKUM COUNTY.

The WEEKLY OREGONIAN of October 7th 1876, contains an address to the independent voters of your counties signed by M. S. Griswold, chairman of the committee on nominations for Pacific County Independent Convention. In this address Mr. Griswold says:

The avowed object of this candidate (C. A. Reed) is local legislation, the nature of which is understood to be a threat against property and vested rights. In Pacific county it is well understood that such a charge has no foundation in truth, and needs neither refutation nor comment from me, but in the counties of Cowlitz and Wahkiakum, where I am not so well known, it is possible some might be found to credit Mr. Griswold's statement. I desire first to call your attention to the fact that Mr. Griswold, in making this charge, leaves you altogether in the dark as to the nature or character of the proposed local legislation which he says is my avowed object. If there was even the shadow of foundation for such a charge, why does he not out with it like a man, so that you can get an intelligent understanding of the matter upon which to base your action at the polls on the 7th day of November next. But he studiously avoids any such explanation for fear of exposing the secrets of the little squad of men for whom he assumes to speak. The promiscuous jingle of words in which this gentleman indulges himself when he says "threats against property and vested rights," "French socialism," "American soil," and "the preponderance of a foreign vote," etc., bears the indelible impress of the political trickster and demagogue. In regard to the preponderance of the foreign vote in this county, such is not the fact, while it is true we have quite a number of citizens in this county of foreign birth, who are as a class industrious, useful and enterprising and who in point of intelligence and integrity of character will bear favorable comparison with the average citizens of this county. And now, as to my avowed object (for it is true that I have one and do not hesitate to say what that object is). As a citizen and taxpayer of Pacific county, my object now is, and has been in time past, to promote the general prosperity of the county by giving proper encouragement to the development to each and every one of its rich and varied natural resources, to use my best endeavors to hasten the survey of agricultural lands and thereby open them up to actual settlers who come to cultivate the soil, to aid in the construction of public roads whenever they are found practicable, and in cases where there is too little local labor to insure their speedy construction, if there is no authority in law by which the County Commissioners are justified in appropriating money, then I am in favor of legislation to enable them to do so in all cases where the advantages to be desired will fully justify the outlay. What I have said in regard to this matter is and shall be my object for all the counties which comprise this Council District. If elected to the office for which I am nominated, my object shall be first to make myself thoroughly acquainted with the legislative wants of the whole district without regard to the particular county in which I happen to reside, especially with the great salmon fishing interests now only partially developed, the greater portion of which are located within the limits of this Council District. I shall deem it my imperative duty to visit and consult representative men who are engaged in that branch of industry and solicit advice and information in regard to what legislation, if any, is necessary to secure its permanent prosperity. Having secured proper knowledge of the legislative wants of the district, you can rest assured that no effort shall be spared on my part, by all honorable means, to promote the best interests of the whole district.

RUPTURE!
No More Metallic Trusses Used!
No More Suffering from Iron Hoops or Steel Springs!

THE SUPERIORITY OF OUR ELASTIC Trusses over the rigid Iron Hoops which in former days were the only resource of the ruptured admits of NO ARGUMENT.

By means of this appliance the pressure on the Rupture itself can be made uniform and continuous and to the extent required in each case until a slight inflammation of the parts is secured and the consequent effusion of lymph which is essential to a lasting process and [illegible] is time to the conclusion of the treatment, the pressure being entirely within the control of the patient, can be lessened daily as the adhesion progresses and the body becomes sound. All cases of reducible Hernia are permanently relieved without regard to the age of the patient or the duration of the injury, while in its action it is a wavers from all the cruelty that has [illegible] the [illegible] of the malady with tortuous Metal Trusses from the earliest age to the present day. Your attention is called to the following facts:

1st—There are no springs to press upon or to injure the back.
2d—It is simple in construction and not liable to get out of order.
3d—This instrument is worn with perfect ease while riding horseback.
4th—The Rupture is retained and the pressure the same while in any position.
5th—It has none of the injurious results of metallic Trusses.
6th—It will perform radical cures where all others fail.
7th—It is worn with ease and comfort night and day, which cannot be said truthfully of any metal Truss whatever.

Experience shows that all tempered spring Trusses necessarily press upon and often disease parts of the body that before were in a perfectly healthy condition. Lumbago and other equally distressing ailments are not unfrequently the outgrowth of such pressure, and in view of this fact it becomes a matter of decided consequence to avoid like calamities if possible.

Examination Free. The closest scrutiny of physicians solicited.

SHIPPING NOTES

The *Blache* is the only vessel now in port seeking charter

Before another week some six or seven vessels of the grain fleet will be ready for sea

The *Cassava* is receiving grain at Flanders' wharf. She will finish her cargo to-morrow

The ship *Zuleika* is discharging ballast and will commence loading for the United Kingdom immediately

The French bark *Marmane* will finish discharging ballast to-day, and will have quick dispatch for Havre

The French bark *Frederic* under charter to Corbitt & Macleay having finished discharging ballast, is loading with grain

The *Armanella*, *City of York* and *Warwick Castle*, are all down the river now. They will shortly clear for the United Kingdom

The bark *Garibaldi* and *Edward James* are both loading for China—the former vessel at Corbitt & Macleay's dock, and the latter at Pacific dock

The bark *Dawn* from San Francisco arrived at this port Wednesday night bringing a miscellaneous cargo. She is lying at Flanders wharf discharging cargo.

The ship *Millwall*, chartered by Kinney Bros, to load with grain and flour for Europe is discharging her ballast at Pacific dock and will begin to receive cargo soon

British bark *Cornea* has been lying for several days at the eastside dock. Having completed her cargo last evening for Europe she will be towed down the river to-day

Yesterday the British bark *Salado* cleared from this port for Europe carrying away 1 338 474 pounds of wheat, valued at $21 521 35. She will probably go down the river to-day

The ship *Michael Angelo* has completed discharging ballast at Pacific dock and will commence to receive a cargo of grain to-morrow. The *Michael Angelo* is chartered by Henry Land, of San Francisco.

THE TERRITORIES

Politics waxing warm in Idaho over the election for delegate to Congress and local officers,

The farmers in Weiser valley, I T, are about through threshing. The yield of grain has never been so great

A. L Simond informs the *Avalanche* that $40 000 in gold dust have been taken from claims in that immediate vicinity the present season

The Seattle Coal Co shipped 3 095 tons of coal during September. Neither the Renton nor the Talbot Co are at work, owing to faults and water

Syrup from sorghum is being extensively made in Walla Walla valley this season. Those who have tested the same made by the late improved machinery pronounce it of superior quality

The threshing machines at La Conner are still humming away. The farmers are making the most of the pleasant weather now. Several small schooners are also in the vicinity waiting to carry away the grain

Owing to the cutting down just one half of the usual rates allowed by government for surveys not one acre of public land in Washington Territory has been surveyed by the government this year nor will there be any

Lewis Lappee writes from Grand river on the Union Pacific railroad under date of September 23d to a friend in Silver City that he recently arrived there. Everybody there he says looks upon the Black Hills as a second California

The Duwamish is full of logs at present. The Seattle *Intelligencer* is informed that there never were so many logs being driven down that river at one time before. It is estimated there are over one million feet in the river altogether on the way down

The foundries of Seattle are at present working to their utmost capacity filling orders for car wheels and axles from the Seattle Coal and Transportation Co. In a few weeks the first section of the S & W R R will be in running order which together with the steamboat trade the foundrymen will have their hands full

Yesterday says the *Olympian* of the 10th inst teams were engaged in hauling from Samuel Coulter's slaughter house shank and other large bones of cattle. They go down on the *Anderson* to Victoria and from there on an English ship to London where they will be used in making knife handles and for similar purposes. Some six tons were sent away

Owing to the depression of the San Francisco coal market and the consequent reduction in prices the Seattle Coal Company has for some time been reducing the number of its employes, discharging the unmarried men and retaining those of family. This depression will probably continue until the 1st of January after which better prices may be looked for and a resumption of operations more active than at any previous time

Under the heading of "Coals to Newcastle" the Seattle *Intelligencer* of the 11th utters a few pertinent and suggestive remarks which will apply with nearly equal force to every section on the Northwest coast. It says: The *Dakota* on Monday took down over 100 raw hides from the Sound. A large portion of these will be imported here again in the form of leather. There is no reason why we should not manufacture all our leather and most of our boots, shoes and harness. She also took down several bales of wool. Much of this or its equivalent will return here in socks and blankets. Why not knit our socks and weave our blankets at home? A large amount of staves and hoop poles are shipped from here each season and return in the shape of buckets tubs etc. All these might be made here as well as in San Francisco

BRITISH COLUMBIA

The fishermen living on Mayne Island are doing remarkably well, making as high as $5 per day

The tug *Beaver* brought down the bark *Hy Buck* coal laden October 6th from the Chase river mine bound for San Francisco

A man named Gorje Baldes was found dead in a shanty on the corner of Douglas and Herald streets Victoria, at about 9 o clock on Wednesday evening

The San Juan Lime company are turning out sixty barrels of lime daily and facilities are at hand for a further supply as soon as the demand will warrant it

The government has appointed Mr. Clemitson one of the teachers at the Victoria public school to be superintendent of education for the Mainland east of the Cascades

Mr James Moore a noted stock breeder from British Columbia was at Guelph lately for the purpose of inspecting and purchasing thoroughbred cattle and Cotswold sheep

Two men working in Deception Gulch Stick river says the Victoria *Standard* of the 10th brought into town yesterday 50 oz coarse gold which they had taken out of their claim in two days

McKenzie & Clarke residents at Barkerville, have just driven a herd of beef cattle over land from the Sound. ... The cattle will be brought down from ... to supply the Victoria market with beef

J J Robertson ... Cariboo miner has left for Nass river, where he has purchased a fishing station and will enter on a large scale into the manufacture of Oolachan oil for which first class facilities exist at his site

Mr Greaves ... Thompson river valley drove the first band of cattle over the Hope Nicola trail last week. Mr Greaves reports the trail to be in first rate condition. A three days drive is also saved to the farmers by the new trail in getting their cattle to Hope

The government steamer *Sir James Douglas* arrived at Victoria October 7th from Dean's canal having on board Jennings' railroad division C P R R S who have located a line of railway from the head of Dean's canal up Salmon river a distance of about fifty miles

The wire rope for the ferry at Savona's was sent up last week so that in a short time the residents in the vicinity of Cache creek and Kamloops will be able to reap the benefit of the re-establishment of regular communication across the Thompson river at that point

Trouble Over a Slave.

VALETTA MALTA Oct 11—The steamer from Tripoli brought the bearer of dispatches for Washington from the U S consul. Private letters and passengers by the steamer report that a slave and negro fled from his master and was employed by Mr Vidal. On his way to market the negro was seized by his master's friends. Mr Vidal demanded of the Pasha that the negro be restored. The *Corriere Mercantile* of Malta praises the American consul for his energetic action. Mr Jones successor of Vidal will arrive at Tripoli to-day

The Abyssinian Campaign—Egyptians again Defeated.

LONDON Oct 12—A Paris correspondent telegraphs an account of the interview with an officer in the Egyptian army who gives the essential details of horrible events which have taken place in Abyssinia during the attempts of Egypt to chastise the Abyssinians. There have been two expeditions. The first which was dispatched in October 1875 consisting of 4 000 men was surprised in a defile of Goundet and massacred to the last man. The second of 11 000 men started in January last. It met the Abyssinians in February in a defile of Coura and was overwhelmed. 4 000 men being killed. The Abyssinian king then went into the interior and according to latest reports has repeated what he did in the defiles of Goundet and Coura by a similar rising of the army of the Egyptians. Details of this as of the other expedition are guarded with secrecy

CYRUS NOBLE DISTILLERY, 1st Dist., O.
CINCINNATI April 1 1876
Messrs LILIENTHAL & Co

Gentlemen—I have just returned from a trip through Kentucky, Ohio and West Virginia, undertaken for the purpose of examining the various distilleries in those districts, and I am now more than ever confirmed in the opinion, so often expressed to you that your distillery is the most complete, and best conducted of any in the United States.

The careful selection of your grain the purity of the water the slower and more cautious method of distillation, is what gives the NOBLE WHISKY its superior qualities, and has gained for it the reputation which it universally sustains throughout the United States

Gratified that the 20 years devoted to the distillation of the CYRUS NOBLE WHISKY, has been attended with such happy results, I trust I may be spared to continue my labors in its interest, and that of its ... and consumers.

I am, Gentlemen,
Yours faithfully,
CYRUS NOBLE.

Voters in Trouble.

SAN FRANCISCO, Oct. 12.—United States Supervisor of Elections Nathaniel Holland has completed his examination of the great register, and the result creates apprehensions that in the November election 4 000 illegally registered voters will be challenged at the polls and their votes rejected for failure to comply with the law. Among this list are not only Democrats and Republicans, federal and local office-holders, but citizens of the best standing, who have lived in the community for a quarter of a century, and the challenging of whose vote was never dreamed of heretofore. Investigation has developed that most of the illegal registrations are made in transfers from other counties, and that very few cases have arisen in this county. The illegality arises in the case of naturalized citizens whose registration shows no date, place or court of naturalization. It seems evident that a strict construction of naturalization will work great hardship in many cases where proofs of naturalization could not possibly be furnished for various reasons, and it has been suggested that the way to determine what is the correct construction of the law governing registration is to make up a test case and present it in one of the district courts, and in this way a decision may be arrived which will be satisfactory.

Re[illegible] of a Stage Robber.

In the summer of 1868 a stage coach running from Boise City, Idaho, to Corinne, Utah, was stopped by five stage robbers, and the treasure entrusted to Wells, Fargo & Co., to the amount of $64,000, taken. The footpads divided the gold dust and coin, and buried the bullion, amounting to about $50,000, near the scene of the robbery and then fled in different directions. One of the robbers, with the design of cheating his fellows, returned to the place, unearthed it and buried it about four miles distant and proceeded about his business. A few days after he was captured by the authorities and, with two others of the gang who were subsequently arrested, was sent to the Nevada State Prison at Carson City for eight years. He who transplanted the treasure died in prison, first telling a comrade and one of the guards who had befriended him, the location of the treasure. The guard tried to find it, but failed, and finally turned the case over to Wells, Fargo & Co. They employed S. Robertson, of Oakland, to work up the case. Robertson found where the treasure had been concealed, but it had been removed probably by the other robbers, who had in the meantime been [illegible]ed from the penitentiary. Investigation convinced the detective that a portion of the bullion, amounting to about $13,000 or $15,000, had been disposed of in various places around Virginia City, and it was finally traced to the Carson mint, where it was run into coin. The rob[illegible] alarmed at the close [illegible] kept upon their movements, separated and disappeared. In May last three of the robbers met at Panamint. One of the party said if he were in San Francisco he could easily obtain means to take him to the spot where the plant was and raise it, suggesting at long from that [illegible] they had been away so [illegible] authorities had given up all hope of either finding the bullion or obtaining evidence upon which to rearrest them. They came here and after some little difficulty managed to arouse the cupidity of George R. Bailey, a young man doing business in Oakland, who furnished them money, and in June last they tracked across the mountains, and to their amazement discovered that the bullion had been carried away. They spent a week or so in diligent search for the treasure, and returned to this city. On their way down they concluded to swindle their outside partner, which they did by passing off on him a bar of bogus bullion. Subsequently they began to fear the discovery of the character of the bar would get them into trouble, and while all were crossing the bay together snatched it from him and threw it overboard. Bailey procured a warrant for the arrest of the parties, charging them with grand larceny in stealing a bar of bullion valued at $6 500. They were arrested last night in Oakland, and gave the names of William F. Wilson, Carey Thompson and Jos. Langley. Thompson is said to have respectable connections. In the police court to-day the accused moved a preliminary examination for no other purpose than to shut out the facts of the case. Cross-examination of one of the witnesses developed the fact that the bar was bogus, which appeared, greatly to the astonishment of the prosecuting witness. However, counsel for the defense said he wished to make no defence before the police court, and would go before the grand jury. The court held the parties in $5,000 bail each. The case is one of the most remarkable which ever came up in this city. What has become of the $35,000 is a mystery, but it is presumed that in some way the location of the bullion was discovered by some one connected with the State prison at Carson, and removed.

Trotting at Bay District Park.

SAN FRANCISCO, Oct. 12.—At the Bay District Park to-day, the purse was for the 2:26 class, and the entries were among the most prominent of coming trotters of California. The starters were Gold Note, Jerome, Alice, Dirigo, Tommy Gates, Sweetbrier and Lou Whipple, the positions drawn being in the order in which the names are given. The day was favorable for fast time, the air being chilly and raw and fog drifting from the ocean. Gates won the first heat, Alice two lengths back, leading Whipple by a neck, Dirigo, Sweetbrier, Gold Note and Jerome coming home in the order named; time, 2:26. The second heat was very exciting. Alice fell on the track, the sulky losing a wheel by collision with Whipple. The driver of Gates claimed that he could not get by her and came in on a run to save distance. After considerable talk on the distance question, the judges decided that Sweetbrier had won the heat, Lou Whipple second, Jerome 3d, Dirigo 4th, Gates 5th, Gold Note 6th, Alice 7th; time 2:28½. Gates won the 3d heat rather easily in 2:20, Sweetbrier, Whipple, Jerome, Dirigo and Alice in the order named; Gold Note distanced. Owing to the lateness of the hour, the conclusion of the race was postponed till to-morrow.

The race for to-morrow is for the 2 25 class. There are ten entries and likely to be a large field of starters. In the pools Lady Cummings favorite, Hayward Chief 2d choice, field 3d, Nettie Patten 4th. As the horses are very closely matched, a close contest may be expected.

SAN FRANCISCO, Oct. 11.—At the Bay District park race, the opening meeting yesterday was a purse for stallions who had never beaten 2:30, and of six entries, five came to the post. These were Alexander, James Lick, Ventura, Reno and Billy Hayward. The placing was in same order in which their names are written, and Reno was favorite. In the first heat Ventura came in winner by several lengths, Reno 2d, Alexander 3d, Billy Hayward 4th, James Lick 5th. Time, 2:29. Although Hayward came in 2d in the next heat, the judges placed them: Reno 1st, Alexander 2d, Ventura 3d, Hayward 4th, Lick distanced. Time, 2:31½. Reno went off with the lead on the third heat and retained it; Ventura coming in for second place, Alexander 3d, and Hayward 4th. Time, 2 31½. Fourth heat was a repetition of the third, Reno taking the lead, and keeping it, Ventura was 2d, Hayward 3d, Alexander 4th. Time, 2:33½. Ventura got 2d money, Alexander 3d, Hayward 4th.

The race to-day is for 2:26 class, there being eight entries; betting very heavy; Tom Gates favorite at even money against all others; Lou Whipple is 2d and Alice 3d choice.

A special dispatch from New York yesterday to editor *Pacific Life*, says that the mares Josie C, Inspection, Mattie A, and perhaps others, would leave New York for San Francisco on the 18th inst, to take part in the four mile and repeat race, which has been fixed for November 18th, and entries will close on first of the month.

UTAH.

P. D. & S. L. Railroad.

CORINNE, Oct. 11.—Col. H. L. Chapman, engineer of the Portland, Dalles and Salt Lake Railroad has returned from Marsh valley, Idaho, to which place the line of railroad has been surveyed. He reports the route over Malad pass as easy, with no greater grade than ninety feet per mile, with ruling grade of seventy feet. The road has been located to Malad City, Idaho, and the engineers are now at work completing the cross-sectioning, and a large force of graders are preparing the road bed as fast as possible. Contracts have been made for ties. Col. Chapman leaves to-night for Portland with maps, profiles and reports of routes as far as surveyed in order to submit them to the directors of the road.

Voters in Trouble.

SAN FRANCISCO, Oct. 12.—United States Supervisor of Elections Nathaniel Holland has completed his examination of the great register, and the result creates apprehensions that in the November election 4,000 illegally registered voters will be challenged at the polls and their votes rejected for failure to comply with the law. Among this list are not only Democrats and Republicans, federal and local office holders, but citizens of the best standing, who have lived in the community for a quarter of a century, and the challenging of whose [illegible] was never dreamed of heretofore. Investigation has developed that most of the illegal registrations are made in transfers from other counties, and that very few cases have arisen in this county. The illegality arises in the case of naturalized citizens whose registration shows no date, place or court of naturalization. It seems evident that a strict construction of naturalization will work great hardship in many cases where proofs of naturalization could not possibly be furnished for various reasons, and it has been suggested that the [illegible] what is the correct construction of the law governing registration is to make up a test case and present it in one of the district courts, and in this way a decision [illegible] be reached which will be satisfactory.

Romance of a Stage Robber.

In the summer of 1868 a stage coach running from Boise City, Idaho, to Corinne, Utah, was stopped by five stage robbers, and the treasure entrusted to Wells, Fargo & Co., to the amount of $61,000, taken. The footpads divided the gold dust and coin, and buried the bullion, amounting to about $50,000, near the scene of the robbery and then fled in different directions. One of the robbers, with the design of cheating his fellows, returned to the place, unearthed it and buried it about four miles distant and proceeded about his business. A few days after he was captured by the authorities and, with two others of the gang who were subsequently arrested, was sent to the Nevada State Prison at Carson City for eight years. He who transplanted the treasure died in prison, first telling a comrade and one of the guards who had befriended him, the location of the treasure. The guard tried to find it, but failed, and finally turned the case over to Wells, Fargo & Co. They employed S. Robertson, of Oakland, to work up the case. Robertson found where the treasure had been concealed, but it had been removed probably by the other robbers, who had in the meantime escaped from the penitentiary. Investigation convinced the detective that a portion of the bullion, amounting to about $13,000 or $15,000, had been disposed of in various places around Virginia City, and it was finally traced to the Carson mint, where it was run [illegible]. The [illegible] at the close watch kept upon their movements, separated and dispersed. In May last three of the robbers met at Panamint. One of the party said if he were in San Francisco he could easily [illegible] means to take him to the spot where the plant was and raise it, suggesting at long [illegible] that they had been away so [illegible] had given up all hope of either finding the bullion or obtaining evidence upon which to rearrest them. They came here and after some little difficulty managed to arouse the cupidity of George R. Bailey, a young man doing business in Oakland, who furnished them money, and in June last they tracked across the mountains, and to their amazement discovered that the bullion had been carried away. They spent a week or so in diligent search for the treasure, and returned to this city. On their way down they concluded to swindle their outside partner, which they did by passing off on him a bar of bogus bullion. Subsequently they began to fear the discovery of the character of the bar would get them into trouble, and while all were crossing the bay together snatched it from him and threw it overboard. Bailey procured a warrant for the arrest of the parties, charging them with grand larceny in stealing a bar of bullion valued at $6 500. They were arrested last night in Oakland, and gave the names of William F. Wilson, Carey Thompson and Jos. Langley. Thompson is said to have respectable connections. In the police court to day the accused moved a preliminary examination for no other purpose than to shut out the facts of the case. Cross-examination of one of the witnesses developed the fact that the bar was bogus, which appeared greatly to the astonishment of the prosecuting witness. However, counsel for the defense said he wished to make no defense before the police court, and would go before the grand jury. The court held the parties in [illegible] bail each. The case is one of the most remarkable which ever came up in this city. What has become of the $35,000 is a mystery, but it is presumed that in some way the location of the bullion was discovered by some one connected with the State prison at Carson, and removed.

Trotting at Bay District Park.

SAN FRANCISCO, Oct. 12.—At the Bay District Park to-day, the purse was for the 2:26 class, and the entries were among the most prominent of coming trotters of California. The starters were Gold Note, Jerome, Alice, Dirigo, Tommy Gates, Sweetbrier and Lou Whipple, the positions drawn being in the order in which the names are given. The day was favorable for fast time, the air being chilly and raw and fog drifting from the ocean. Gates won the first heat, Alice two lengths back, leading Whipple by a neck, Dirigo, Sweetbrier, Gold Note and Jerome coming home in the order named; time, 2:26. The second heat was very exciting. Alice fell on the track, the sulky losing a wheel by collision with Whipple. The driver of Gates claimed that he could not get by her and came in on a run to save distance. After considerable talk on the distance question, the judges decided that Sweetbrier had won the heat, Lou Whipple second, Jerome 3d, Dirigo 4th, Gates 5th, Gold Note 6th, Alice 7th; time 2:28¾. Gates won the 3d heat rather easily in 2:20, Sweetbrier, Whipple, Jerome, Dirigo and Alice in the order named; Gold Note distanced. Owing to the lateness of the hour, the conclusion of the race was postponed till to morrow.

The race for to-morrow is for the 2:25 class. There are ten entries and likely to be a large field of starters. In the pools Lady Cummings favorite, Hayward Chief 2d choice, field 3d, Nettie Patten 4th. As the horses are very closely matched, a close contest may be expected.

SAN FRANCISCO, Oct. 11.—At the Bay District park race, the opening meeting yesterday was a purse for stallions who had never beaten 2:30, and of six entries, five came to the post. These were Alexander, James Lick, Ventura, Reno and Billy Hayward. The placing was in same order in which their names are written, and Reno was favorite. In the first heat Ventura came in winner by several lengths, Reno 2d, Alexander 3d, Billy Hayward 4th, James Lick 5th. Time, 2:29. Although Hayward came in 2d in the next heat, the judges placed them: Reno 1st, Alexander 2d, Ventura 3d, Hayward 4th. Lick distanced. Time, 2:31¼. Reno went off with the lead on the third heat and retained it; Ventura coming in for second place, Alexander 3d, and Hayward 4th. Time, 2:31½. Fourth heat was a repetition of the third, Reno taking the lead, and keeping it, Ventura was 2d, Hayward 3d, Alexander 4th. Time, 2:33½. Ventura got 2d money, Alexander 3d, Hayward 4th.

The race to-day is for 2:26 class, there being eight entries; betting very heavy; Tom Gates favorite at even money against all others; Lou Whipple is 2d and Alice 3d choice.

A special dispatch from New York yesterday to editor *Pacific Life*, says that the mares Josie C, Inspection, Mattie A, and perhaps others, would leave New York for San Francisco on the 16th inst. to take part in the four mile and repeat race, which has been fixed for November 18th, and entries will close on first of the month.

UTAH.

P. D. & S. L. Railroad.

CORINNE, Oct. 11.—Col. H. I. Chapman, engineer of the Portland, Dalles and Salt Lake Railroad has returned from Marsh valley, Idaho, to which place the line of railroad has been surveyed. He reports the route over Malad pass as easy, with no greater grade than ninety feet per mile, with ruling grade of seventy feet. The road has been located to Malad City, Idaho, and the engineers are now at work completing the cross-sectioning, and a large force of graders are preparing the road bed as fast as possible. Contracts have been made for ties. Col. Chapman leaves to-night for Portland with maps, profiles and reports of route as far as surveyed in order to submit them to the directors of the road.
